Professional Summary

Software Engineer focused on frontend and backend web development. Experienced in building responsive web interfaces and developing backend applications using C#, ASP.NET Core, JavaScript, Entity Framework Core, and databases. I learn through practical projects and enjoy building reliable, user-friendly solutions while continuously improving my software engineering skills.

Technical Skills

Frontend: HTML5, CSS3, JavaScript, Bootstrap, Responsive Web Design

Backend: C#, ASP.NET Core, REST APIs, Entity Framework Core, Authentication & Authorization

Database & Tools: SQL, SQLite, MySQL, Git, GitHub, Visual Studio, VS Code, Microsoft Excel

Engineering: CRUD operations, Repository Pattern, DTOs, Problem Solving, Debugging

Projects

Hostel Management System | C# • ASP.NET Core • Entity Framework Core • SQLite • JavaScript

- Developed a web-based hostel management application for managing users, hostel operations, applications, payments, and related information.
- Implemented authentication and role-based authorization to control access to application features.
- Used Entity Framework Core and SQLite for database operations and CRUD functionality.
- Applied software engineering practices including repositories, DTOs, and structured backend services.
- Built a responsive frontend using HTML, CSS, and JavaScript.

Education

Senior Secondary School Certificate Examination (SSCE) | 2018–2024

Masroor International Technical College — Computer Science | Since October 2025

Training & Additional Experience

General Computer Training | 2023

- Created professional presentations and engaging slides using Microsoft PowerPoint.
- Formatted documents in Microsoft Word using clear layouts, tables, and structured content.
- Used Microsoft Excel for organizing and analyzing data, formulas, spreadsheets, and charts.

Core Strengths

Communication • Time Management • Organization • Creativity • Research • Problem Solving
